Ken Rawlin

MS. A. 9. 1. v. 162

October 31st, 1952.

Dear Miss Rankin,

I am venturing at long last to return your precious loan of Miss Florence Rankin's diary. It has excited a great deal of interest, with its picture of a student nearly sixty years ago, ~~and~~ her nature walks.

Several of us have read the whole diary through with much appreciation of the beautiful notes and paintings which according to the Examiner in 1894 called for his special commendation, and placed Miss Rankin at the head of her fellow students in the first class. And now the book is getting known and I am really afraid of having it any longer lest it should be too much borrowed! It is interesting to note that in those early days the students had an exercise book of drawing-paper which they bound themselves in the book-binding class.

The Editor of the "Parents' Review", herself an old student has asked permission to have copies of two of the walks

sl(a)pspneal62

which she hopes to print in the "Parents' Review". I have also been able to find ~~know~~ myself, the date of the visit of a distinguished scientist, Professor Geddes (later of Town Planning fame in India), to the Union.

With grateful thanks from many of us for this most precious loan.

Yours sincerely,

E Kitching
